

# Logopak UK – the experts in automated pallet labelling

Logopak International Ltd are the experts in automated pallet labelling and offer a wide range of pallet labelling machines that cover all the customer's requirements. The best selling 850 range comes in various forms, including the **850PF** (applies two **A5 Labels**, requiring 2 pallet stops), **850P2** (two labels, one stop) and **850P3** (three labels, 2 stops). For **double stacked pallets**, often seen in the paper, glass, and drinks industries, the double stack 850PF (shown right) offers an effective fixed height solution. If **A4 labels** are required then Logopak offer their larger **920** series of labellers, featuring an 8" print head and up to 1200m label reel capacity, plus the ability to have a **variable labelling height** facility for labelling varying height and double stack pallets. Logopak International Ltd are the UK arm of Logopak Systeme, the inventors and leading manufacturer of industrial print & apply technology.
